

# AUTHOR INDEX

## A

Abbott, Maude E., v, 3, 4.  
Allen, Edgar V., viii, 8.  
Allen, Edgar V., viii, 11.  
Ashman, Richard, vii, 1.

## B

Barnes, Arlie R., vii, 5.  
Bartsch and Wachner, viii, 7, Abs.  
Beck, Claude S., vi, 6.  
Beck, Claude S., viii, 10.  
Brams, William A., viii, 4.  
Brill, I. C., vi, 3.  
Brill, I. C., vii, 11.

## C

Carr, James G., vii, 2.  
Carr, Jesse L., v, 9.  
Cohen, Ethel, viii, 6.

## D

Dack, Simon, viii, 7.  
Dock, William, v, 6, 7.

## F

Feil, Harold, vi, 6.

## G

Golden, J. S., viii, 4.  
Gunther, Lewis, v, 8.

## H

Hamburger, Walter W., viii, 2.  
Hamilton, Burton E., vii, 10.  
Hampton, Aubrey O., vii, 7.  
Hedley, O. F., vi, 8.  
Hines, Jr., Edgar A., viii, 11.

## J

Jaffe, Harry L., viii, 7.

## K

Katz, Louis N., vi, 1.  
Kilgore, Eugene S., vi, 2.

## L

Leake, Chauncey D., vi, 12.  
Luten, Drew, vi, 4.

## M

Margolies, Alexander, v, 11.  
Marquardt, Gilbert H., vii, 8.  
Marvin, H. M., viii, 5.  
Master, Arthur M., v, 12.  
Master, Arthur M., viii, 7.  
Middleton, William S., vii, 6.

## N

Noth, Paul H., vii, 5.

## P

Padget, Paul, v, 10.  
Parker, George W., vii, 4.  
Proger, Samuel, viii, 12.

## R

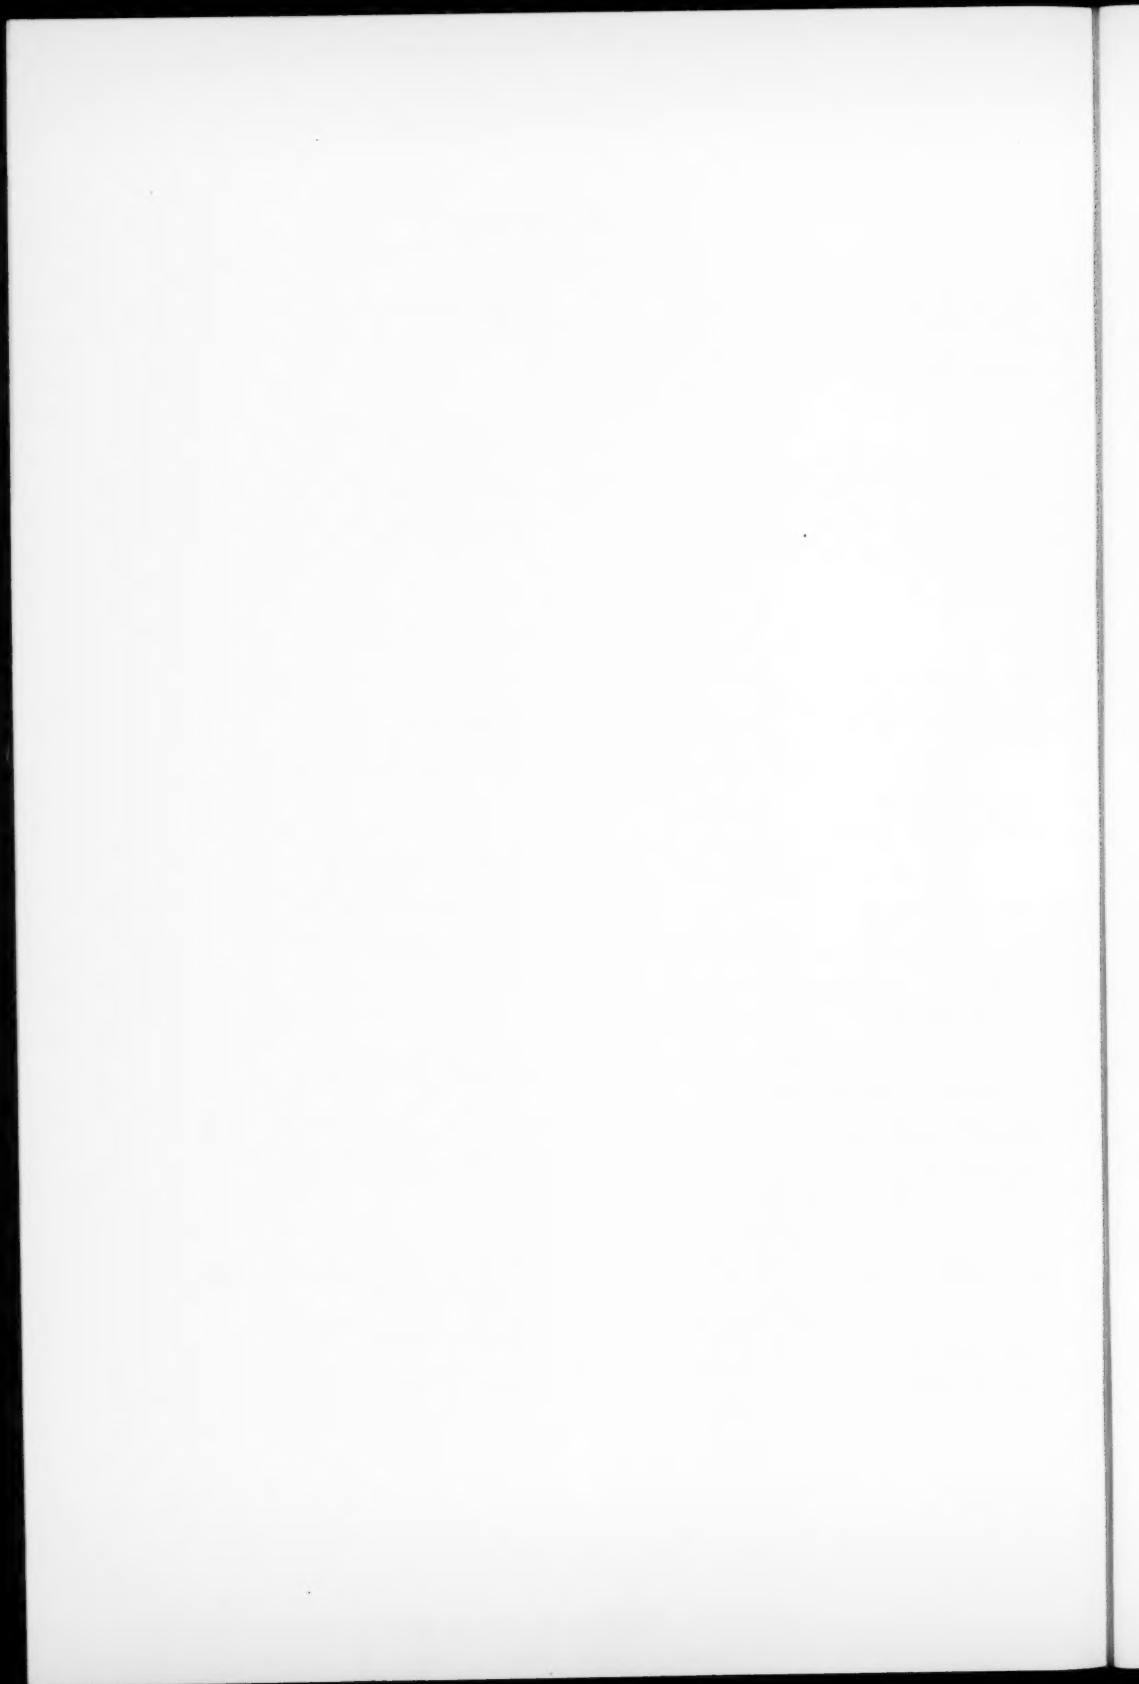

Read, J. Marion, v, 5.  
Robb, Jane Sands, viii, 9.  
Robb, Robert C., viii, 9.  
Roberts, Stewart R., vi, 11.  
Roesler, Hugo, vi, 5.

## S

Salinger, Robert, vi, 7.  
Sampson, John J., vii, 12.  
Saphir, Otto, viii, 2.  
Saunders, John B. deC. M., v, 1, 2.  
Sprague, Howard B., vi, 9, 10.  
Stroud, William D., viii, 3.

## W

Wachner and Bartsch, viii, 7, Abs.  
Weiss, Soma, vii, 3.  
Willius, Fredrick A., vii, 9.  
Wolferth, Charles C., v, 11.  
Wolferth, Charles C., viii, 1.  
Wood, Francis C., viii, 1.

## SUBJECT INDEX

### A

- Acrocyanosis, viii, 8.
- Adhesive pericarditis, chronic, vii, 4.
- Anginal heart failure, surgical treatment of, viii, 5.
- Aorta thoracic, roentgenological measurements of, vii, 7.
- Aortic insufficiency, effect of on blood pressure, v, 5.
- Aortic stenosis, viii, 2.
- Arteries, peripheral, treatment of diseases of, vii, 8.
- Arteriolar disease, effect of on blood pressure, v, 5.
- Arteriovenous fistula, diagnosis of, viii, 8.
- Arteritis, temporal, diagnosis of, viii, 8.
- Atria, development of, v, 2.
- Atrioventricular canal, development of, v, 2.
- Auricular sounds, v, 11.
- fibrillation, etiology and treatment of, vi, 3.
- flutter, etiology and treatment of, vi, 3.

### B

- Beriberi, cardiovascular manifestations of, vii, 3.
- Block, bundle branch, vii, 12.
- Blood flow, coronary, factors determining, vi, 1.
- Blood pressure, fluctuations of, viii, 11.
- Blood pressure readings interpretation of, v, 5.
- Breathing:
  - Cheyne-Stokes', v, 7.
  - rapid, shallow, v, 7.
- Bulbus cordis, development of, v, 2.
- Bundle branch block, vii, 12.

### C

- Cardiac compression, chronic, due to extrinsic scars, viii, 10.
- Cardiac cripple in industry, vi, 2.
- Cardiac disease and trichterbrust, vii, 2.
- Cardiac disease, congenital:
  - clinical aspects of, v, 3 and v, 4.
  - complications and sequelae of, v, 4.
  - cyanosis in, v, 4.
  - diagnosis of, v, 4.
  - different defects in, v, 4.
  - pathogenesis of the defect in, v, 4.
  - prognosis and treatment of, v, 4.
  - relative incidence of, v, 3.
  - medico-legal significance of, v, 9.
- Cardiac disease in pregnancy, vii, 10.
- Cardiac dyspnea, mechanisms underlying, v, 6 and 7.
- Cardiac enlargement, extreme, viii, 4.
- Cardiac in industry, viii, 3.
- Cardiac infarcts, localization of, viii, 9.
- Cardiac output, and Harvey, vi, 12.
- Cardiac viscerosensory reflex, v, 8.
- Cardiolysis for heart disease, viii, 5.
- Cardiovascular manifestations of beriberi, vii, 3.

### C

- Cardiovascular syphilis, prophylaxis and treatment of, v, 10.
- Cervical rib, with arterial thrombosis, viii, 8.
- Chest, pains in, v, 8.
- Cheyne-Stokes' breathing, v, 7.
- Children, electrocardiography in, vii, 1.
- Chronic adhesive pericarditis, vii, 4.
- Circulation, pre-Harveian concepts of, vi, 5.
- Circulation, primitive, v, 1.
- Clinical aspects of congenital cardiac disease, v, 3.
- Complete heart block, effect of on blood pressure, v, 5.

- Compression, chronic cardiac, produced by contraction of extrinsic scars, viii, 10.
- Conduction disturbances in coronary artery occlusion, viii, 7.
- Constrictive pericarditis, viii, 10.
- Cor pulmonale, vii, 11.
- Coronary artery occlusion, conduction disturbances in, viii, 7.
- Coronary artery occlusion, prognosis in, v, 12.
- Coronary blood flow, factors determining, vi, 1.
- Coronary circulation, collateral development of by surgery, vi, 6.
- Coronary heart disease, medico-legal significance of, v, 9.

### D

- Diagnosis of some diseases of peripheral arteries, viii, 8.
- Diet and heart failure, viii, 12.
- Digitalis, therapeutic action of, vi, 4.
- mode of administration, vi, 4.
- Dilatation, acute cardiac, medico-legal significance of, v, 9.
- Disease, Pick's, viii, 10.
- Disease, Raynaud's, diagnosis of, viii, 8.
- Diseases of peripheral arteries, treatment of, vii, 8.
- Ductus arteriosus, surgical ligation of, viii, 5.
- Dyspnea, cardiac, mechanisms underlying, v, 6 and 7.
- Dyspnea:
  - due to anemia, v, 6.
  - due to poor muscle tone, v, 6.
  - due to heart failure, v, 6.
  - due to high venous pressure in lungs, v, 6.
  - nervous element in, v, 7.
  - evening, v, 7.
  - nocturnal, v, 7.

### E

- Electrocardiogram in pericarditis, vii, 5.
- Electrocardiography in children, vii, 1.
- Electrocardiography, precordial, recent developments in, viii, 1.
- Embolism, diagnosis of, viii, 8.
- Enlargement, cardiac, extreme, viii, 4.
- Erythralgia, diagnosis of, viii, 8.
- Evening dyspnea, v, 7.

### F

- Fistula, arteriovenous, diagnosis of, viii, 8.
- Fluctuations of blood pressure, viii, 11.

### G

- Gallop rhythm and third heart sound, v, 11.

### H

- Harvey and cardiac output, vi, 12.
- Heart:
  - development of, part 1, v, 1.
  - development of, part 2, v, 2.
  - disease, medico-legal significance of, v, 9.
  - division of, v, 2.
  - disease rheumatic, management of child with, vi, 7.
  - block, complete, effect of on blood pressure, v, 5.

## SUBJECT INDEX

- disease, public health aspects of, vi, 8.
- murmurs, mechanism of production, vi, 9 and 10.
- pain, v, 8.
- in obesity, vii, 9.
- disease, pulmonary, vii, 11.
- sounds, normal and pathologic, v, 11.
- disease, surgery in treatment of, viii, 8.
- disease, social component in, viii, 6.
- Heart failure, diet and, viii, 12.
- Hypertension, paroxysmal, associated with pheochromocytomas, viii, 11.
- Hypertension, surgical treatment of, viii, 5.
- Hypertensive heart disease, medico-legal significance of, v, 9.
- Hypotension, orthostatic, viii, 11.

### I

- Industry, cardiac cripple in, vi, 2.
- Industry, the cardiac in, viii, 3.
- Infarcts, cardiac, localization of, viii, 9.
- Interarterial septum, development of, v, 2.
- Interatrial septa, development of, v, 2.
- Interventricular septum, development of, v, 2.
- Intoxication, quinidine, treatment of, vi, 3.

### L

- Localization of cardiac infarcts, viii, 9.

### M

- Mechanisms underlying cardiac dyspnea, v, 6 and 7.
- Medico-legal significance of heart disease, v, 9.
- Mid-systolic click, v, 11.
- Mitral stenosis, vi, 11.
- opening snap of, v, 11.
- Murmurs, heart, mechanism of production, vi, 9 and 10.

### O

- Obesity, heart in, vii, 9.
- Occlusion, coronary artery, prognosis in, v, 12.
- Opening snap of mitral stenosis, v, 11.
- Orthopnea, v, 7.
- Oxygen debt in cardiac dyspnea, v, 6.

### P

- Pains:
  - in chest, v, 8.
  - referred visceral, v, 8.
  - of root origin, v, 8.
  - heart, v, 8.
- Paroxysmal hypertension, viii, 11.
- Periarthritis nodosa, vii, 6.
- Pericardial cavity, development of, v, 1.
- Pericarditis, chronic adhesive, vii, 4.
- Pericarditis, constrictive, viii, 10.
- Pericarditis, electrocardiogram in, vii, 5.
- Peripheral arteries, diagnosis of some diseases of, viii, 8.
- Peripheral arteries, treatment of diseases of, vii, 8.
- Pick's disease, viii, 10.
- Pick's disease, surgical treatment of, viii, 5.
- Precordial electrocardiography, recent developments in, viii, 1.
- Pregnancy, cardiac disease in, vii, 10.

- Pre-Harveian concept of the circulation, vi, 5.
- Primitive circulation, v, 1.
- Prognosis in conduction disturbances from coronary artery occlusion, viii, 7.
- Prognosis in coronary occlusion, v, 12.
- Public health aspects of heart disease, vi, 8.
- Pulmonary edema, due to rise in pulmonic venous pressure, v, 6.
- Pulmonary factors in cardiac dyspnea, v, 6.
- Pulmonary heart disease, vii, 11.
- Pulmonic venous pressure, effect of elevated, v, 6.
- Pulse pressure, v, 5.

### Q

- Quinidine intoxication, treatment of, vi, 3.

### R

- Raynaud's Disease, diagnosis of, viii, 8.
- Reflexes from lungs in cardiac dyspnea, v, 7.
- Respiration:
  - nervous control of, v, 7.
  - reflex changes in, v, 7.
- Restriction of diet in heart failure, viii, 12.
- Rheumatic heart disease, management of child with, vi, 7.
- Roentgenological measurement of thoracic aorta, vii, 7.
- Root pain, v, 8.

### S

- Sclerosis of great vessels, effect of on blood pressure, v, 5.
- Sinus venosus, development of, v, 2.
- Social component in heart disease, viii, 6.
- Sounds, heart, normal and pathologic, v, 11.
- Stenosis, aortic, viii, 2.
- Stenosis, mitral, vi, 11.
- Subnormal circulatory response to effort—effect of on cardiac dyspnea, v, 6.
- Surgical development of collateral coronary circulation, vi, 6.
- Surgery in treatment of heart disease, viii, 5.
- Syphilis, cardiovascular, prophylaxis and treatment of, v, 10.

### T

- Thoracic aorta, roentgenological measurement of, vii, 7.
- Thrombo-arteriosclerosis obliterans and thromboangiitis obliterans, viii, 8.
- Thrombosis, arterial, with cervical rib, viii, 8.
- Thrombosis, sudden, viii, 8.
- Thyroidectomy, total, in treatment of heart disease, viii, 5.
- Traumatic lesions of heart, medico-legal significance of, v, 9.
- Trichterbusst and cardiac disease, vii, 2.
- Truncus arteriosus, development of, v, 2.

### V

- Valvular heart disease, medico-legal significance of, v, 9.
- Vascular factors in cardiac dyspnea, v, 6.
- Ventricle, formation of, v, 2.
- Vital capacity in cardiac dyspnea, v, 6.
- Vocational possibilities for cardiac patients, viii, 3.
